

Dear Waqar,

Here is a short update on the HAUSKU webshop. The development work is approximately 70% complete and on schedule. All major systems — legal pages, payments infrastructure, security, customer accounts, transactional emails and the complete new design — are finished and tested. Below you will find what has been completed, followed by the three items we still need from your side before launch.

OVERALL PROGRESS

~70%

1

Completed — Development Side

ALL MAJOR SYSTEMS DONE AND TESTED

Legal & Compliance

- ✓ **Impressum, AGB, Privacy Policy, Returns pages** — live from Haendlerbund texts
- ✓ **GPSR product safety data** — structured, per product, complete
- ✓ **Withdrawal form (Widerrufsformular)** — downloadable PDF
- ✓ **Legal company data everywhere** — invoices, emails, footer, contact

Design & Storefront

- ✓ **Complete new design system** — forest green brand palette, entire shop
- ✓ **Bilingual storefront** — German & English throughout
- ✓ **Shipping logic** — free-shipping threshold, live rates
- ✓ **Unsubstantiated marketing claims removed** — legally safe wording

Customer Accounts

- ✓ **Registration, login, logout** — incl. Sign in with Google
- ✓ **Password reset via email** — secure, time-limited tokens
- ✓ **Profile & address management** — full create / edit / delete
- ✓ **DSGVO account deletion** — one click, legally compliant

Security (Professional Hardening)

- ✓ **All admin APIs protected** — session guards on every route
- ✓ **Signed session cookies** — tamper-proof (HMAC)
- ✓ **Rate limiting & bcrypt password hashing** — brute-force protection

Payments & Orders

- ✓ **Stripe Checkout integration ready** — cards, Apple Pay, Google Pay
- ✓ **Invoices & credit notes** — automatic PDFs, legally formatted
- ✓ **Returns (RMA) system** — request to refund, fully tracked

Transactional Emails

- ✓ **All emails in German + English** — order, shipping, returns, contact, welcome, reset
- ✓ **Legal email footer** — complete company block in every email

2

Pending — Your Side (3 Items)

DETAILED IN SEPARATE PDF: [CLIENT-REQUEST.PDF](#)

Only these three items are holding up the launch. Everything else on our side is ready.

1. Stripe API Keys (payments)

test keys from dashboard.stripe.com — without these no order can be placed

2. AGB final approval

confirm the adapted web-shop terms (or send revised text)

3. Tracking / analytics decision

which tools (if any)? — determines the cookie consent banner

As soon as these arrive: Stripe keys > payment test (1 day) · AGB > legal closed (same day) · Tracking decision > consent banner if needed (2 days). Then we fix a launch date together.

Best regards,

HAUSKU Development Team
